THE IO FOUNDATION

DIGITAL RIGHTS

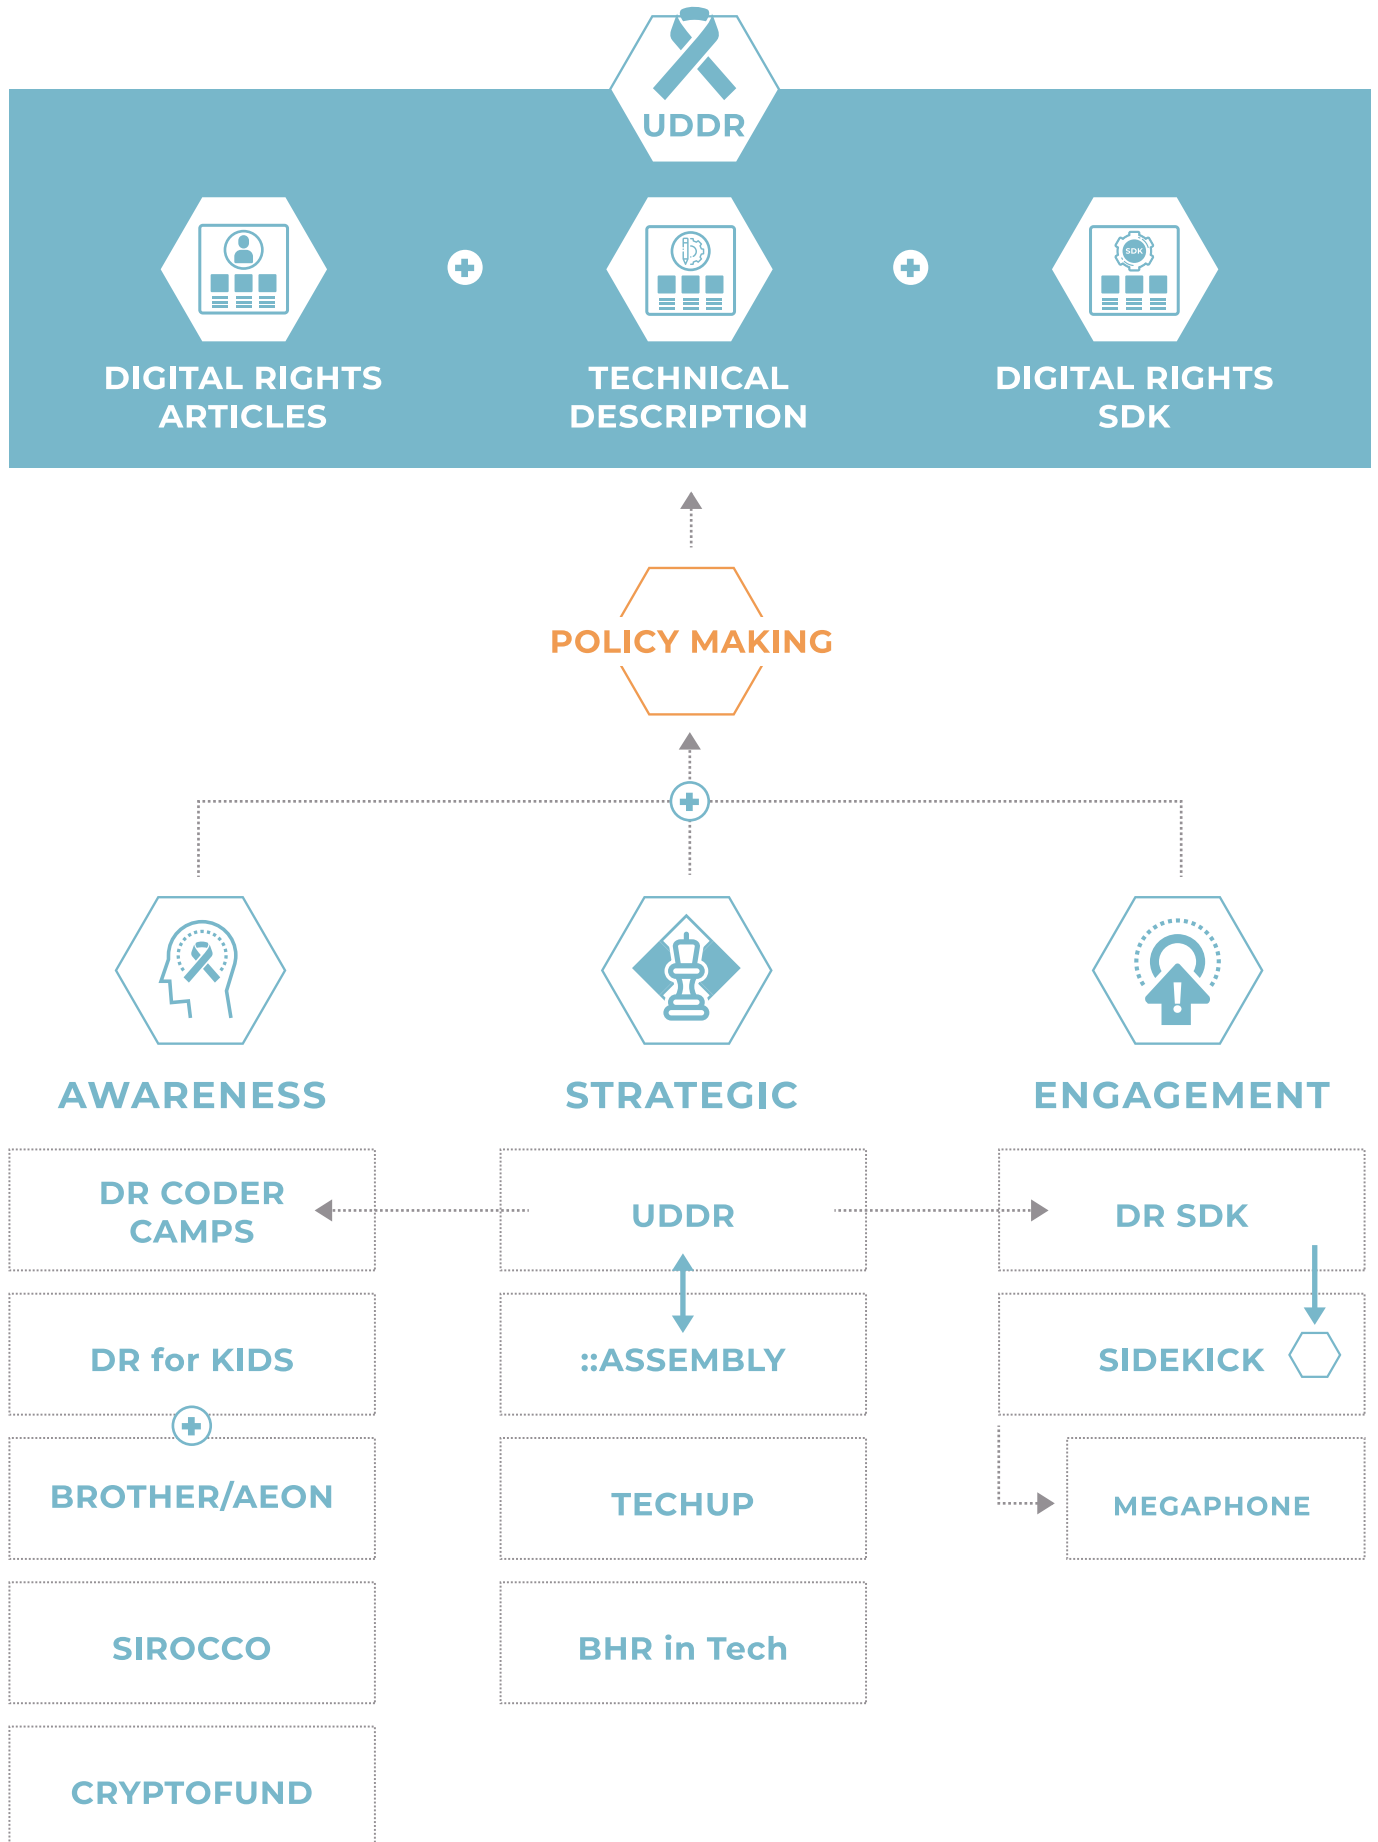

The IO Foundation is a non-profit organization born from a fundamental concern on the state of Digital Rights in the world.

We aim to raise awareness on the importance of Digital Rights and seek to help promoting the creation of a Universal Declaration of Digital Rights (UDDR) with the collaboration of other organizations.

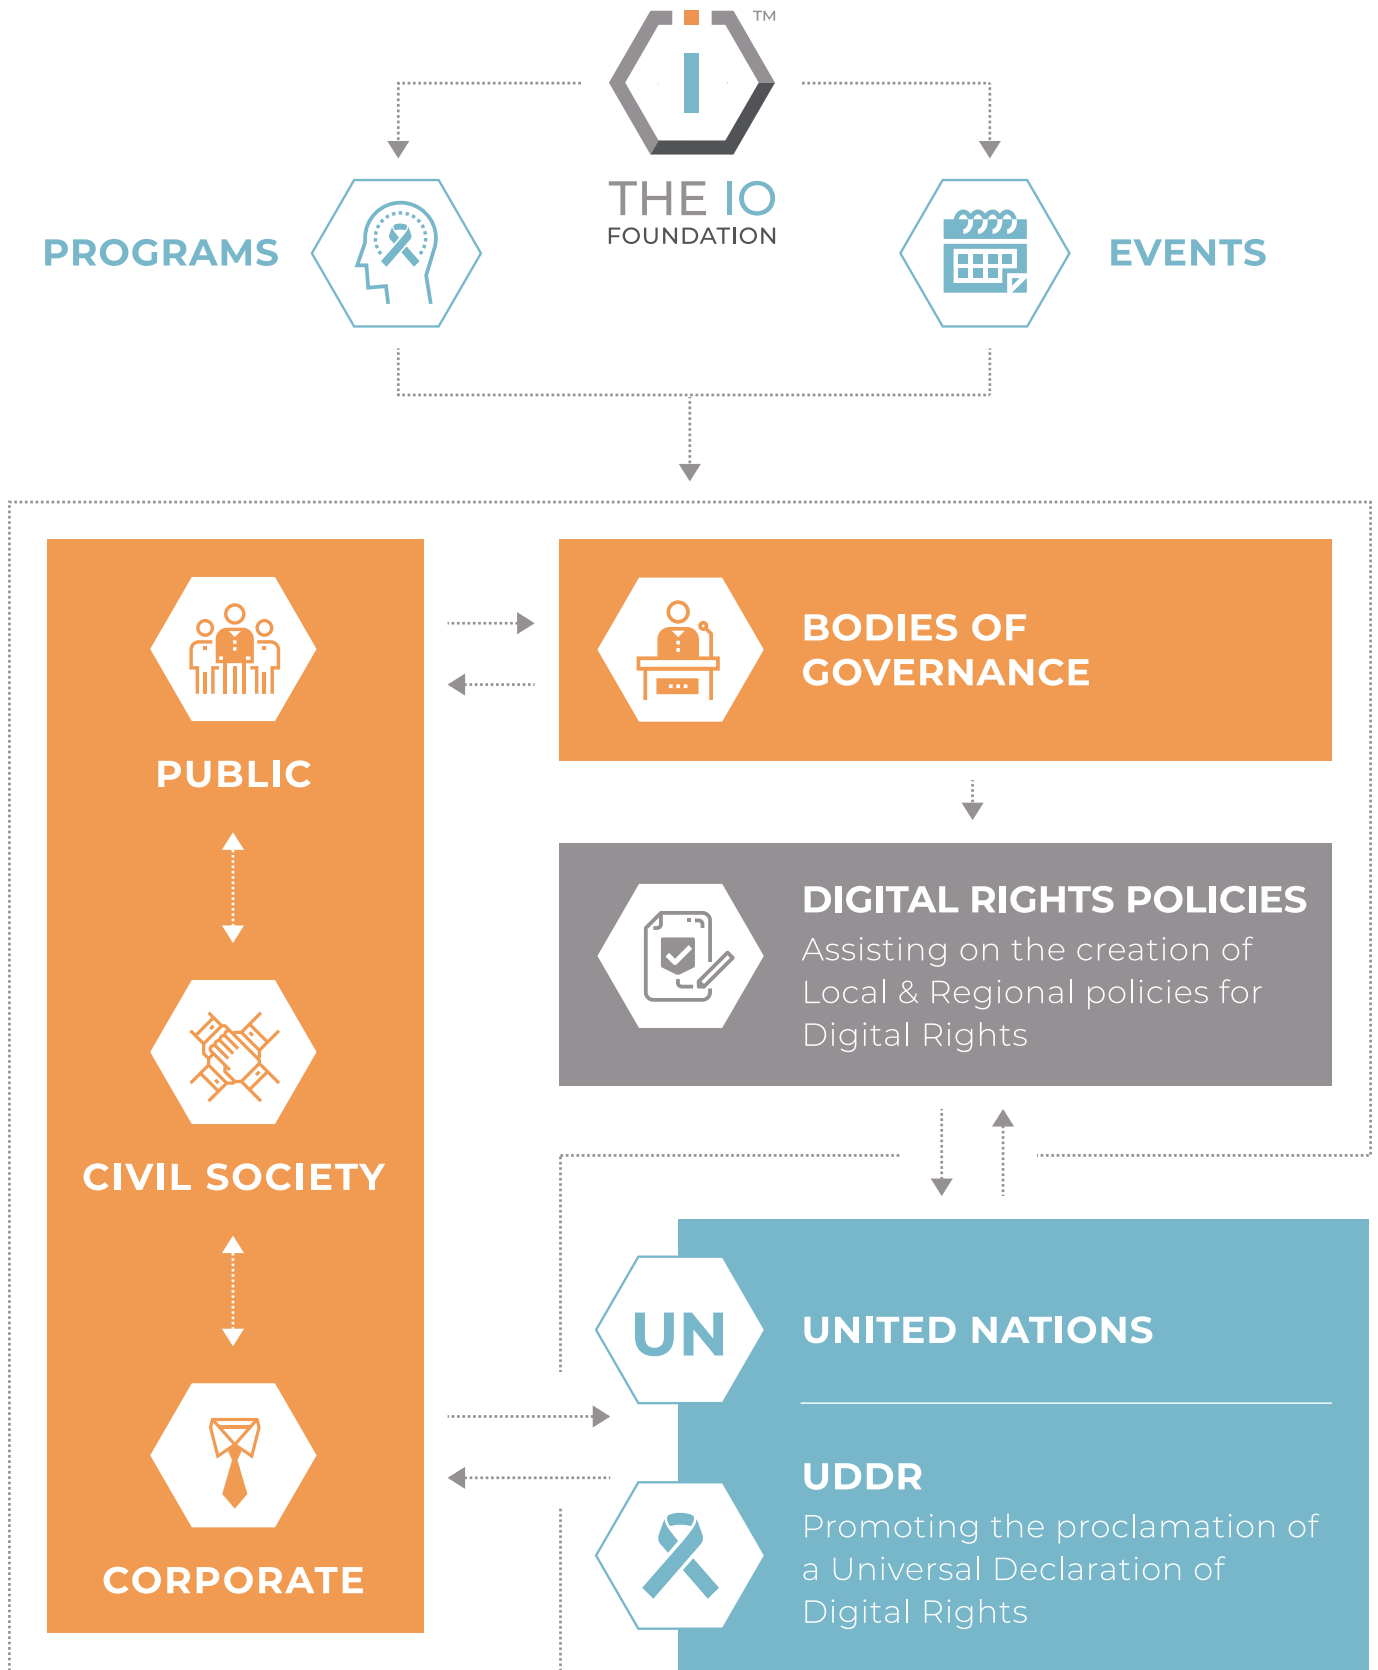

To this end, we implement specific projects that help users to protect their data and metadata in their digital interactions. We also organize activities to inform people and provide them with tools to effectively protect their rights.
